# WASTEWATER TREATMENT CONSTRUCTION GRANTS PROJECT PRIORITY LIST BY STATES IN EPA REGIONS

STATE MUNICIPAL PROJECT PRIORITY LIST. GRANTS ASSISTANCE PROGRAMS

ENVIRONMENTAL PROTECTION AGENCY

DECEMBER 1975

## KEEP UP TO DATE

Between the time you ordered this report—which is only one of the hundreds of thousands in the NTIS information collection available to you—and the time you are reading this message, several *new* reports relevant to your interests probably have entered the collection.

Subscribe to the **Weekly Government Abstracts** series that will bring you summaries of new reports *as soon as they are received by NTIS* from the originators of the research. The WGA's are an NTIS weekly newsletter service covering the most recent research findings in 25 areas of industrial, technological, and sociological interest—invaluable information for executives and professionals who must keep up to date.

The executive and professional information service provided by NTIS in the **Weekly Government Abstracts** newsletters will give you thorough and comprehensive coverage of government-conducted or sponsored research activities. And you'll get this important information within two weeks of the time it's released by originating agencies.

WGA newsletters are computer produced and electronically photocomposed to slash the time gap between the release of a report and its availability. You can learn about technical innovations immediately—and use them in the most meaningful and productive ways possible for your organization. Please request NTIS-PR-205/PCW for more information.

The weekly newsletter series will keep you current. But *learn what you have missed in the past* by ordering a computer **NTISearch** of all the research reports in your area of interest, dating as far back as 1964, if you wish. Please request NTIS-PR-186/PCN for more information.

## Keep Up To Date With SRIM

SRIM (Selected Research in Microfiche) provides you with regular, automatic distribution of the complete texts of NTIS research reports *only* in the subject areas you select. SRIM covers almost all Government research reports by subject area and/or the originating Federal or local government agency. You may subscribe by any category or subcategory of our WGA **(Weekly Government Abstracts)** or **Government Reports Announcements and Index** categories, or to the reports issued by a particular agency such as the Department of Defense, Federal Energy Administration, or Environmental Protection Agency. Other options that will give you greater selectivity are available on request.

The cost of SRIM service is only 45¢ domestic (60¢ foreign) for each complete microfiched report. Your SRIM service begins as soon as your order is received and processed and you will receive biweekly shipments thereafter. If you wish, your service will be backdated to furnish you microfiche of reports issued earlier.

Because of contractual arrangements with several Special Technology Groups, not all NTIS reports are distributed in the SRIM program. You will receive a notice in your microfiche shipments identifying the exceptionally priced reports not available through SRIM.

A deposit account with NTIS is required before this service can be initiated. If you have specific questions concerning this service, please call (703) 451-1558, or write NTIS, attention SRIM Product Manager.

GRANTS ADMINISTRATION DIVISION
GRANTS INFORMATION GUIDE

### NEW STATE PROJECT PRIORITY LIST PUBLISHED

The most recent "State Project Priority List" was delivered to the National Technical Information Service (NTIS) on January 12, 1976 for publication and sale.

State Project Priority Lists are expected to include projects planned for EPA funding through September 1977. Lists from some States may include a lesser number of projects, or in a few cases, a project priority list may not have been available for inclusion in this publication. Information on the various aspects of the projects would be available only through the respective State Water Pollution Control Agency or the EPA Regional Office, if the State has completed its processing of the application. A list of State Water Pollution Control Agencies is contained on page 35 of the EPA publication "Federal Assistance Programs of the Environmental Protection Agency."

Addenda to the "Project Priority List" will be issued as these lists become available. To avoid delaying the publication of the material on hand, this "Project Priority List" will be issued through NTIS as part of the subscription service for the "Waste Water Treatment Construction Grants Data Base."

The "State Project Priority List" should be used in conjunction with the "WWT Data Base" since the making of an award on a project contained on this list is reflected in the monthly issue of the "WWT Data Base"; because of this and the necessity of issuing addenda to purchasers of the initial priority list, the list will not be sold alone.

At the present time, a one year subscription (12 monthly issues of the "WWT Data Base" and any "State Priority Lists" or addenda to the list that are issued) costs $100.00.

The "WWT Grants Data Base" publication is distributed to subscribers approximately six weeks after the close of the awards-listed month. It may be obtained through:

National Technical Information Service
U.S. Department of Commerce
5285 Port Royal Road
Springfield, VA 22161

Issue Date: January 2, 1976
Grants Information Branch (PM216)

## STATE PROJECT PRIORITY LIST

This list contains wastewater construction projects by priority as assigned by the States. Each entry includes project number, applicant name, eligible cost, grant step, and priority number.

## WASTEWATER TREATMENT CONSTRUCTION GRANTS DATA BASE

Awards for the waste water treatment facilities construction grants under Public Law 92-500 made during a particular month are listed in a monthly publication entitled "Wastewater Treatment Construction Grants Data Base - Public Law 92-500 Project Records." This publication is prepared by the Grants Administration Division and distributed and sold by the National Technical Information Service.

The March 1974 issue (PB 231 300) provides a base listing of all grants awarded under Public Law 92-500. Beginning with the April 1974 issue (PB 231 300-01) the listings contain awards for one month only. Microfiche (24X) of each copy is also available. The subscription price is $100.00 annually. Previous issues can be purchased at $25.00 a copy.

These publications are available for examination at the Grants Office and Library of EPA headquarters and each Regional Office.

ATTENTION

AS NOTED IN THE NTIS ANNOUNCEMENT, PORTIONS OF THIS REPORT ARE NOT LEGIBLE. HOWEVER, IT IS THE BEST REPRODUCTION AVAILABLE FROM THE COPY SENT TO NTIS.
